

BEYOND VISUAL CLEANLINESS

A new standard in hygiene control.

**See what others can't.
Neutralize what matters.**

Aidapt combines fluorescence-assisted detection with targeted UVC/UVA decontamination in one portable handheld workflow.

MAIN PROCEDURE

01 DETECT

Invisible contamination

02 DECONTAMINATE

UVC + UVA dual action

CORE PERFORMANCE

UVC

35 mW/cm²

High-germicidal power for targeted decontamination.

UVA

1.5 W/cm²

High-intensity activation for AOP.

DUAL 5° OPTICS

TIGHT, TARGETED BEAMS

Designed for focused penetration.

CANDIDA AURIS

TARGET WITHIN ~1.6 SEC

Optimized for speed without compromising safety.

DESIGNED FOR DAILY USE

- Portable, battery-powered device
- Fits established cleaning routines
- Immediate, targeted action

WHERE AIDAPT MAKES AN IMPACT

Food Service · Healthcare
Hospitality & Elder Care · Transportation
Education & Facilities
Retail / Public / Corporate

SEE IT. NEUTRALIZE IT.

One workflow. One device. More confidence.
